INTERNSHIP

VolexSoft 

Dec 2024 – Mar 2025

Software Engineer Intern

Hyderabad, India

- Built the official company site and a scalable charity web app using the **MERN** stack.
- Developed a custom CMS to improve content management and user experience.
- Optimized back-end systems, integrated APIs, and implemented **responsive designs**.

MeitY Project MANUU 

Mar 2024 – June 2024

Web Developer Intern

Hyderabad, India

- Entered course content and helped develop CMS dashboard for edeekshaam.in.
- Created three engaging educational games to support interactive learning.
- Used **Git for collaborative** code management and version control.

PROJECTS

DevTinder  | **React, Express, Node.js, Mongdb**

- Built DevTinder, a social networking platform for developers to connect, share posts, and collaborate.
- Implemented features like **Google/Email auth**, post creation with image uploads (Cloudinary), and Redux persistence.
- Developed a responsive UI with React, Tailwind CSS, and DaisyUI, with protected routes and infinite scrolling.
- [Live site here](#)

EduVoyage  | **Node.js, Express, Prisma, PostgreSQL, React, TypeScript**

- Built EduVoyage, a **full-stack e-learning platform** enabling users to browse courses, manage carts, and authenticate via Google.
- Implemented **backend with Node.js, Express, Prisma, and PostgreSQL**, ensuring secure sessions with JWT and js-cookie.
- Designed a fully responsive UI using React, TypeScript, Tailwind CSS, **with robust input validation via Zod**.
